

Thanks to Our 2009 Volunteer Work Groups!

Thanks to the all the groups that volunteered in the Gardens of Alcatraz in 2009! Combined, the groups contributed 1,600 hours in the gardens. They helped out with a wide range of projects—digging an irrigation trench for the rose garden, prepping the site for the rainwater catchment system, removing invasive *Arundo* grass, and weeding and deadheading the *Pelargoniums* in the roadside trough.
